FOYSTON, GORDON & PAYNE INC.

Investing in the FGP Core Plus+ Bond Strategy

Expertise in credit analysis is a core competency of our Fixed Income team. The FGP Core Plus+ Bond Strategy leverages this competitive advantage to create an investment solution that improves the risk and return metrics of a universe bond solution. This is accomplished by investing in a core of federal, provincial, municipal, and investment grade corporate bonds while utilizing greater flexibility in allocations to each segment. Additionally, this solution further improves the risk and return profile by opportunistically adding "Plus" components such as high yield bonds, hybrids (bonds and preferred shares), convertibles, and foreign bonds.

Philosophy

We believe that superior investment returns are achieved by taking a long-term, bottom-up, value-oriented approach to investing based on detailed fundamental research and analysis. Our proven philosophy revolves around two long-standing core concepts:

Understanding Quality

Investment Structure

- We use a rigorous credit process to differentiate the level of risk between companies and each security they issue
- We seek to understand each business so that we can appreciate how a company's financial management and organizational structure complement or detract from the base business risk
- The credit process culminates in the FGP Investment Grade Rating (IGR), an internal risk rating of a company and the securities it issues

Disciplined on Valuation

- We employ a proprietary risk-based valuation tool to select fixed income investments
- Each security has an internal rating based on our internal credit research
- Using the internal rating, we then use the proprietary FGP Internal Spread Matrix to determine if the market valuation is attractive
- This unique method of determining value enhances both the buy and sell decision

PLUS (0-20%)
High-yield, hybrids,
convertibles, and foreign bonds
bolids
SPREAD PRODUCTS (20%)
Federal agency, provincial, municipal, and
investment-grade corporate bonds

Government and investment-grade corporate bonds (65%)

Cash range 0% -10% Government / Government-guaranteed Minimum: 20% bonds Corporate bonds Maximum: 80% Plus+ component: High-yield bonds, hybrids (bonds and Maximum: 20% preferreds), convertibles, and foreign bonds Minimum bond credit quality B (low) Minimum bond portfolio credit quality А Duration ± 2 years vs. BM 50 Maximum direct holdings

*This strategy can include investments in any FGP fixed income strategies as well as individual investment-grade securities.
