

INVESTMENT OBJECTIVE

The FGP Canadian Ex-Energy Equity Fund (the “Fund”) aims to generate an attractive total investment return through long-term capital growth as well as dividend and other income. To achieve this, the Fund will invest primarily in a diversified mix of Canadian equity securities, excluding holdings in the energy sector as defined by the Global Industry Classification Standard (GICS).

INVESTMENT STRATEGY

FGP employs a long-term, bottom-up value-oriented approach to security selection. The portfolio manager, supported by FGP’s research team, is responsible for security selection and portfolio construction within FGP’s diversification and risk control guidelines.

PERFORMANCE OBJECTIVE

The Fund’s objective is to exceed the return of its Performance Benchmark over five-year periods.
